

# EAA CHAPTER 974 NEWSLETTER FEBRUARY 2004

Editor: George Deeb

E-mail: 974submissions@airportapproachpics.net

## THE PREZSEZ

Hi everyone. We had a big turnout for the After-Christmas party. Much thanks to Famous Dave's for their good food and service and to our guest speaker Stan Rolles for his amazing stories of navigating a B17 during WWII. And even a bigger thanks to Bob Dombek for enduring 2 years of service to the chapter and walking away still smiling (just kidding). Bob devoted a lot of time and effort into every thing we did and pulled people

together to work with team effort making for a fun year.

We worked hard to get the 2004 calendar out early. A couple dates are still pending ( Wings Weekend & GCRC Flying Circus). Some paper copies are in the ammo box (by the bulletin board) at the chapter hanger. Our Feb. meeting will be at Moss-Vale where Tim Morris has a growing business of making precision firmed aircraft fluid lines. They have moved to a larger building (and closer to the airport) at the corner of Donald & Industrial rd. Dave Raney is going to demo aircraft pre-heat.

Hope to see you there  
Tom Linfert

P.S. Chapter dues (\$25) are due again and can be brought to the meeting or sent to the Treasurer Mark Taylor

## A NEW YEAR

It's cold. It was 8 degrees last night, and only got up into the 20s today. We've had two months of continuing below freezing temps, which is the longest run I can remember in the last five years. Had to cancel the Pastry Fly-out - not a big deal for most, but for someone like myself, who had a pastry deprived childhood, it could scar me for life. I may have to see an analyst. We are going to have a demo of aircraft preheating at the meeting this Sunday - talk about a timely subject. After posting this newsletter I'm going to sit underneath my full spectrum lightbulb, and think of warmer days to come.

See you at the next meeting
